PROFESSIONAL SUMMARY

Results-driven B.Tech Final Year student and Frontend Developer experienced in building responsive web applications and backend API integrations. Skilled in React.js, JavaScript, and Tailwind CSS for creating clean, accessible interfaces. Adept at leveraging AI tools like Cursor to accelerate development and deliver high-performance user experiences.

TECHNICAL SKILLS

- **Programming:** Python, Java, SQL, JavaScript, TypeScript
- **ML/AI:** TensorFlow, PyTorch, Scikit-learn, LSTM, NLP basics
- **Data Engineering:** Pandas, NumPy, Matplotlib, Seaborn, Plotly
- **Web/APIs:** HTML, CSS, React.js, FastAPI, Flask, Twilio API
- **Other:** Problem Solving, Data Structures & Algorithms, Git, Linux

EXPERIENCE

AICTE & Palo Alto Networks

Remote

Cybersecurity Intern

Apr 2026 – June 2026

- Spearheaded threat analysis protocols, enhancing network security monitoring efficiency by 15%.
- Authored industry-aligned security reports, completing training via Palo Alto Cybersecurity Academy.

Ghaziabad Roller Industry

Ghaziabad, India

Frontend Developer

June 2026 – Present

- Architected responsive frontend components, improving UI accessibility scores by 25%.
- Streamlined high-performance web applications, reducing rendering latency through code optimization.

PROJECTS

- **AgriNova:** Engineered CNN-based diagnostics; improved classification accuracy by 30% using TensorFlow.
- **E-commerce Platform:** Orchestrated a scalable retail site with secure auth; optimized CI/CD deployment speed by 20%.
- **Expense Tracker:** Developed type-safe modular architecture, reducing data synchronization errors by 40%.
- **Image Steganography:** Implemented robust, high-security data-hiding algorithms using OpenCV pixel manipulation.
- **BrewIshu Landing Page:** Designed a high-availability atmospheric web experience deployed via Vercel.

EDUCATION

- **B.Tech in Computer Science & Engineering**, IMSEC Ghaziabad 2023–2027
- **Senior Secondary (XII):** 83%, FAMIC Ayodhya 2021
- **Secondary (X):** 84.2%, FAMIC Ayodhya 2019

CERTIFICATIONS

- **Java Web Development with AI:** Completed industry certification from HCL Technologies (March 2025).
- **MongoDB Overview:** Professional certification in Core Concepts & Architecture from MongoDB Education (May 2026).
- **AI/ML Certification:** Intensive training program completed through CETPA Infotech (June 2026).
- **JavaScript Bootcamp:** Comprehensive web development certification from LetsUpgrade (November 2024).
- **Python Bootcamp:** Data and programming certification from LetsUpgrade (November 2024).

ACHIEVEMENTS

- Secured Top 15 position in the IBM Datathon 2025.
- Achieved Top 15 standing in the COER 2025 Hackathon.
- Awarded Runner-Up in the Ad Mad Show at VIBGYOR 2025.
- Ranked in the Top 10 at Data Verse, KIET 2025.
- Successfully deployed a full-stack website during the Web Wizards 2.0 2026 competition.
